

PAVEL KREPELKA

BIOGRAPHY

PAVEL KREPELKA

Pavel has spent over 20 years working in manager positions within medium-sized companies. He has a lot of experience in the fields of company acquisitions, restructuring, company moving during continuous performance, and crisis management connected with company growth.

He believes that if you want to elevate company productivity, you must elevate the productivity of the manager. That doesn't mean elevate the time spent working in a company, but to work right, concentrate on the right things and cooperate with the right people.

To start the growth of his own team, Pavel began to coach individuals focusing on systematic coaching, which helps to reveal the potential for change and development in both individuals and teams. He elevated his coaching skills by completing the Four Decisions® certification.

Pavel gradually sold his share in the manufacturing company and began to pursue coaching full time.

Executive Summary:

Pavel has founded several companies and presently works for Krepelka Coach Company and BCom Consulting s.r.o. His experience is based on his own practice in growing companies, starting with 30 employees and now employing over 500. Before he began to fully focus on systematic coaching and the development of leaders' and companies' potential, he was the co-owner and responsible for the acquisition, restructuring and optimization of a manufacturing company. He is an active member of the Czech Association of Coaches.
