

MIKE KNAPP BIOGRAPHY**MIKE KNAPP**

Mike is passionate about helping owners and leadership teams become the superheroes in their own stories. As a business coach and growth advisor, he works with small and mid-sized businesses to apply strategic thinking and disciplined execution to achieve their goals.

Mike is specialist in making things happen. He is a strategic thinker, execution leader and technology strategist, who has worked with more than 70 companies to help them achieve their goals.

As a member of the Incrementa (un)consulting family, he leverages the Four Decisions® and other frameworks to implement scalable and sustainable solutions; making things simple and clear so they become part of a company's foundation. His projects cover all parts of the business lifecycle, from strategic planning, to business transformations and major system implementations.

He is a life-long teacher, with a professional start at the age of 14. Since then, he's taught dozens of programs and workshops spanning IT, project management, process improvement, leadership development, cybersecurity, strategic planning, meditation (for more than a decade) and more.

Mike is married with two amazing little girls. He is a meditation instructor, helping people develop a strong mind and improve their health and wellness. A (recovering) adrenaline junkie, he's drawn to speed and challenges and also loves to be outdoors exploring.

Executive Summary

Mike brings more than 20 years as executive-level management consultant, with clients in almost every sector, including manufacturing, high-tech, professional services, and more. During this time, he founded and exited from multiple technology firms.
