

Christopher Pitcher BIOGRAPHY

Christopher Pitcher

Chris has worked in the Canadian and US technology sectors since early 2001 and brings extensive experience in a variety of industries and capacities. He is the founder of an e-commerce business and understands the entire cash conversion cycle and supply chain from production to customer.

His WHY is “Make Sense” which allows him to provide practical, common sense advice to clients who are surrounded by complexity. He brings a friendly, approachable east coast attitude to his client interactions. Chris’s style is very unassuming, authentic, and makes people feel at ease instantly. He understands that trust is the most important aspect in the coaching-client relationship.

When Chris is not helping clients, he can be found working on his golf game, drinking a nice glass of scotch, or spending time with friends and family. He and his wife spend a portion of time in Africa yearly spending time with family and working on projects there, and always looks forward to taking a trip back to his roots in Newfoundland.
